

Comparable data to track and optimize spend for sustainability

"At Jungheinrich we are continuously looking to increase the share of our sustainable spend. IntegrityNext provides us with the supplier data we need to analyze how we're doing and where to improve."

Hans-Henning Hein

Head of Procurement Performance and Development

Objective

Jungheinrich wanted to systematically assess its suppliers and collect data to determine whether they meet the company's sustainability requirements and to identify potential for optimization and track progress.

Furthermore, Jungheinrich needed reliable data to determine and increase the share of its sustainable spend as well as support the company's reporting and analytics.

How IntegrityNext Helps

Jungheinrich uses the IntegrityNext solution to collect comparable sustainability data of the top spend suppliers. The collected data is then exported to the business warehouse and used for various analyses across all categories and regions.

The company also uses its own IntegrityNext profile to increase transparency and report publicly about sustainability performance to clients and investors.

About Jungheinrich

Industry	Intralogistics
Annual Revenue	4,8 bn €*
Active Suppliers	>700*
Spend Volume	>2 bn €*

*(2022)

Challenges

- Obtain key performance indicators for sustainability of top spend suppliers
- Determine and increase the share of sustainable spend
- Increase transparency about sustainability performance to clients and investors

Benefits

Increased transparency

Jungheinrich significantly increased transparency about the sustainability performance of its suppliers, yielding a response rate of 86% with IntegrityNext.

Easy integration

Jungheinrich is able to easily export the collected sustainability data from IntegrityNext into the company's business warehouse.

Comparable data of top spend

IntegrityNext provides Jungheinrich with comparable sustainability data of its top spend suppliers, used as key performance metrics for internal analysis and reporting purposes.
