

# Digitization and sustainability set DMG MORI up for success

“DMG MORI pushes digitization and sustainability on all levels. The IntegrityNext solution allows us to monitor the worldwide compliance of our suppliers with sustainability standards in an automated way.”

**Timo Rickermann**  
Chief Procurement Officer

## Objective

For DMG MORI, sustainability is a prerequisite for business success and thus also a basic requirement to collaborate with suppliers. The company recognised digitization as an important means to simplify processes and integrate sustainability into their procurement processes.

DMG MORI was therefore looking for a solution to integrate into its supplier qualification process, that would enhance the assessment with sustainability criteria. The goal was to cover all A and B suppliers, accounting for ~95 % of the purchasing volume for direct materials.

## How IntegrityNext Helps

After 8 weeks, DMG MORI had 90% of its direct spend under monitoring and seamlessly integrated the IntegrityNext solution into its automated, scaled supplier qualification process.

IntegrityNext allows DMG MORI to continuously and consistently monitor its suppliers across all regions and purchasing units regarding the relevant ESG topics.

The IntegrityNext solution digitizes and significantly simplifies this process, saving DMG MORI time and resources.

## About DMG MORI

Industry	Manufacturing
Annual Revenue	>2 bn €
Active Suppliers	5,041
Employees	6,800
Geographies	Global

## Challenges

- ▶ Integrate ESG assessments into the qualification process of an extensive supplier network
- ▶ Ensure consistent monitoring across multiple regions and business units

## Benefits

### Quick turnaround

IntegrityNext has no lengthy implementation phase and helped DMG MORI achieve results quickly: Within 8 weeks, 90% of direct spend was under monitoring.

### High automation

IntegrityNext's highly automated approach perfectly supports the company's digital objectives and saves time and resources.

### Seamless integration

IntegrityNext integrates ESG assessments seamlessly into DMG MORI's supplier qualification process.
