

New standards in public healthcare for supply chain sustainability

“At Kantonsspital Winterthur we’re driven by the medical requirements from our medical departments which we can only meet with high standards in quality and safety. IntegrityNext helps us to influence our choice of suppliers.”

Cornelia Menges

Objective

Operating in the healthcare sector, Kantonsspital Winterthur is led by longstanding values and high standards in terms of quality, traceability, sustainability and equal treatment. Quality is a key criteria when purchasing goods such as medical supplies.

The company was looking for a solution with which they could implement an automated supplier assessment process on the relevant ESG topics and embed a responsible sourcing culture that takes industry standards and sustainability criteria into account.

How IntegrityNext Helps

IntegrityNext enables KSW to monitor 100% of its direct spend regarding all relevant sustainability standards and quality aspects. As a next step, the company plans to integrate the IntegrityNext data directly into its P2P-system to make sustainability criteria a natural part of the sourcing process.

KSW also uses the IntegrityNext platform to automatically control the actuality of the certificates of its medical devices.

About KSW

Industry	Healthcare
Annual Revenue	523 m €
Active Suppliers	455
Spend Volume	40 m €
Geography	Switzerland

Challenges

- Meet the values and high quality standards of the medical departments
- Establish an automated process to retrieve supplier data on multiple relevant ESG topics
- Embed sustainability criteria into purchasing decisions

Benefits

All topics covered

The IntegrityNext platform covers all industry-relevant sustainability and quality topics.

97% response rate

KSW achieved a fantastic response rate of 97% from the integrated suppliers.

Easy integration

IntegrityNext integrates easily into all common procurement systems. KSW can thus integrate IntegrityNext into its P2P system with minimal effort.
