## Context & Goals

ACCIONA's supply chain is highly dynamic, encompassing more than 67,000 tier 1 business partners across 40 countries. The company uses the IntegrityNext platform to achieve the following objectives:

- Automating and optimizing supplier prequalification
- Conducting a comprehensive risk analysis of critical suppliers
- Enhancing supplier engagement
- Strengthening the sustainable procurement strategy

## Project Description

Close collaboration between sustainability and compliance, procurement, and IT ensured the seamless integration of IntegrityNext assessments and data into ACCIONA's electronic tendering and procurement management system.

The company continuously monitors more than 67,000 suppliers, with new ones being added each month. Depending on their risk profile, suppliers must provide detailed information on specific ESG topics.
